75th Anniversary of the start of the nuclear age

Join the annual Hartford area

Hiroshima/Nagasaki Remembrance
A Shared Call for Nuclear Weapon Abolition

Thousands of nuclear weapons kept on hair trigger alert are targeting civilian populations. Rather than moving to eliminate this threat, a new nuclear arms race has begun and the number of nuclear armed nations threatens to rise.

Seventy-five years later – do you feel more secure?

Due to personal safety concerns from the Covid-19 pandemic
The 2020 Remembrance will be a multimedia Zoom event
“Zoom-in” and join the call for the abolition of nuclear weapons

The horror of Hiroshima and Nagasaki
cannot be allowed to happen again
Together let's call for a nuclear free world
